Isha Foundation to clean Mahabs

World famous for its shore temples, [Mamallapuram](#) has now been world heritage listed and efforts are being made to preserve what is left. The natural environment with its numerous living and non-living resources is man's most precious heritage. But unfortunately [Mamallapuram](#) does not sport the cleanest of [beaches](#) and [swimming](#) in it would probably cause a real stir among the locals. Plastic waste and litter on the beach is a menace to the environment in this otherwise beautiful place.

The Vanashree Eco Center is an initiative of the volunteers at Isha Foundation, a non-profit charitable trust based at Coimbatore. Its purpose is to protect and preserve the ecology and to educate people about conservation and ecology through experiential programs.

The volunteers of Isha foundation at Chennai will be mirroring this initiative at Chennai on September 4th 2004. Supported by the strength of over 150 volunteers, Isha foundation proposes to clean up the beach
